2015 PRODUCT CATALOGUE

SALOMON WAS BORN IN THE FRENCH ALPS IN 1947.  
OUR PASSION FOR MOUNTAIN SPORT PROGRESSION, PRODUCT DEVELOPMENT,  
QUALITY, AND CRAFTSMANSHIP DRIVES US TO CREATE PROGRESSIVE GEAR  
TO ENABLE FREEDOM AND HELP YOU CHALLENGE YOURSELF IN THE MOUNTAINS.

FROM PAST TO PRESENT

# SALOMON'S FOOTWEAR HISTORY

For 20 years, Salomon innovations have revolutionized the footwear market. Building upon our mountain heritage, Salomon has developed these innovations through experience in hiking, adventure racing, and trail running. Now, Salomon is bringing their iconic fit and performance to products dedicated to the specific needs of military, safety, and law enforcement professionals.

"What fascinates me, is what I am going to do tomorrow."

- George Salomon

# SALOMON FORCES RANGE

Soldiers and professionals need dedicated equipment to operate in hostile environments, beginning with footwear. In addition to year-round comfort, outstanding traction in changing terrain, footwear for military and law enforcement must be stable, durable enough for intense conditions, and provide complete weather protection. Salomon's line of Forces Footwear for 2015 includes specific versions of some of our highest performance models, dedicated to the needs of professionals in the field.

## ASSAULT

365 days versatility

**SPEEDCROSS**  
Fast in all conditions

## MOUNTAIN

**QUEST 4D**  
Robust & dynamic

## EXTREME COLD WEATHER

**TOUNDRA MID WP**  
Warm until -40°C/-40F

# CONTAGRIP®

Contagrip® is Salomon's branded grip technology. Originally developed in 1994 for Mountaineering Boots, Contagrip® has evolved into a broad range of different sole solutions, incorporated into every sport category we make. Developed and tested in collaboration with elite athletes, Contagrip® is a mix of compound, density, and lug geometry to ensure grip, durability and lightweight, optimized for each practice and each surface.

SPORT-SPECIFIC GEOMETRY

SPORT-SPECIFIC DENSITY

SPORT-SPECIFIC COMPOUND

# FIT TECHNOLOGIES

When military personnel train and deploy, their feet become flatter and wider the longer they stay out in the field. Combine that with the blisters, calluses and bunions that develop over many miles of training, and it's no surprise that proper fit is universally listed as the most important benefit of a tactical shoe.

## QUICKLACE™

Easy-on, easy-off system for a secure and customized fit.

## SENSIFIT™

Wraps the foot from the midsole to the lace system, providing a stable and precise fit.

# CHASSIS TECHNOLOGIES

When you move train and deploy in uneven, varying terrain, having a platform that provides stability and cushioning is critical. Salomon has developed different chassis constructions developed for different terrain and uses, ensuring stability, cushioning, and comfort, while letting you move dynamically.

## 3D CHASSIS

Stability & propulsion for mountain terrain

*3D Chassis*

## 4D CHASSIS

Foot control & protection with active comfort

*4D Chassis*

# GORE-TEX® TECHNOLOGY

In rain, snow or ice - GORE-TEX® Insulated Comfort is highly insulating with inner lining that protects your feet from the cold and keeps them comfortably warm. The GORE-TEX® membrane delivers durable waterproofness. Your feet stay dryer and warmer.

# AEROTHERM INSULATION

Higher performance insulation with less weight and less bulk. Aerotherm is a high performance insulation technology that resists compression and keeps feet warm up to  $-40^{\circ}\text{C}$  /  $-40^{\circ}\text{F}$ . The lightweight and performance come from Nanotechnology that traps 90% air into the construction. It weighs less, is much thinner, and insulates better than other technologies. Aerotherm is available in our most extreme winter footwear.

Focus on toe cap

# ASSAULT

The lightest tactical shoes for fast assaults, combining lightweight, weather protection and dynamic comfort.

# FORCES - ASSAULT

## XA PRO 3D MID GTX® FORCES
